Directors' Report

The Directors of Argo Global Listed Infrastructure Limited (ALI or Company) present their report together with the financial statements of the Company for the half-year ended 31 December 2023.

Directors

The following persons were Directors of the Company during the period and up to the date of this report:

Russell Higgins AO, Chairman	Non-independent Director (appointed 1 July 2018)
Jason Beddow	Non-independent Director (appointed 26 March 2015)
Mark Hall	Independent Director (appointed 6 December 2019)
Fiona Hele	Independent Director (appointed 1 July 2022)
Joycelyn Morton	Non-independent Director (appointed 26 March 2015)

Principal activities and state of affairs

The Company is a listed investment company established to provide investors with the opportunity to invest in a diversified portfolio of listed global infrastructure securities, with the primary objective of providing shareholders with long-term capital growth and dividend income.

The Company's registered office and principal place of business is Level 25, 91 King William Street, Adelaide SA 5000.

Review of operations

The Company recorded a loss after tax of \$3.9 million for the period to 31 December 2023 compared with a \$1.3 million profit in the previous corresponding period. The decrease in profit was primarily due to a fall in valuations of investments in the portfolio. Reported profit can be volatile as it includes changes in the portfolio's market value from period to period, in addition to realised gains and losses from the sale of investments. This element of income is more volatile than operating revenue from the dividends and distributions received from the investments in the portfolio.

Net Tangible Asset Backing

Net tangible asset backing per ALI share was \$2.30 as at 31 December 2023, compared with \$2.39 as at 30 June 2023 and \$2.37 as at 31 December 2022.

Dividends

A fully franked final dividend of 4.5 cents per share for the year ended 30 June 2023 was paid on 29 September 2023.

On 19 February 2024, the Directors declared a fully franked interim dividend of 4.0 cents per share (2023: 4.0 cents per share fully franked) to be paid on 22 March 2024.

Matters subsequent to the end of the interim period

The Directors are not aware of any other matters or circumstances that have arisen since the end of the financial period which have significantly affected or may significantly affect the Company's operations, the results of those operations or the Company's state of affairs in future financial years.

Directors' Report

Rounding of amounts

Australian Securities and Investments Commission Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 applies to the Company and accordingly amounts have been rounded to the nearest one thousand dollars in accordance with that Instrument, unless otherwise stated.

The Company is managed as a whole and is considered to have a single operating segment, being investment in global listed infrastructure securities. The Company is domiciled in Australia and derives its revenue from its international investment portfolio through the receipt of dividends, distributions, interest and any profits on the revaluation or sale of its investments.

The portfolio of global listed infrastructure securities has the following geographical diversification:

	December 2023	December 2023	June 2023	June 2023
	A\$'000	%	A\$'000	%

Total	399,191	100.0	423,040	100.0

7. Fair value measurement

The Company discloses fair value measurements by level of the following fair value hierarchy:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(a) Fair value in an active market (Level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs. The quoted market price used for financial assets and liabilities held by the Company is the last traded price.

The Company values its investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of its investments, the Company relies on information provided by independent pricing services for the valuation of its investments.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Notes to the Financial Statements

(b) Valuation techniques used to derive Level 2 and Level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Company would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Company holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

(c) Recognised fair value measurement

The tables below sets out the Company's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(i) Transfers between levels

There were no transfers between the levels of the fair value hierarchy for the half-year ended 31 December 2023.

(ii) Fair value measurements using significant unobservable inputs (Level 3)

The Company did not hold any financial instruments with fair value measurements using significant unobservable inputs during the half-year ended 31 December 2023.

(iii) Fair values of other financial instruments

Due to their short-term nature, the carrying amounts of receivables and payables are assumed to approximate fair value. The Company did not hold any financial instruments which were not measured at fair value in the Statement of Financial Position.

8. Events subsequent to balance date

No other matters or circumstances have occurred subsequent to the reporting date that have significantly affected, or may affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent periods.

Independent auditor's review report to the members of Argo Global Listed Infrastructure Limited

Conclusion

We have reviewed the accompanying half-year financial report of Argo Global Listed Infrastructure Limited (the Company), which comprises the statement of financial position as at 31 December 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, other information as set out in Appendix 4D to the Australian Securities Exchange (ASX) Listing Rules and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Company does not comply with:

(a) The *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Company's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date;
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and

(b) The ASX Listing Rules as they relate to Appendix 4D.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

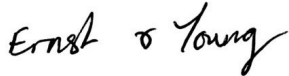

Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and complies with the ASX Listing Rules as they relate to Appendix 4D. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001* and whether the half-year financial report is not in accordance with the ASX Listing Rules as they relate to Appendix 4D.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
