Explanatory Notes

FINANCIAL REPORTS

Item 1: Financial and other Reports

Section 317 of the Corporations Act 2001 requires each of the Financial Report (which includes the Financial Statements and Directors' Declaration), the Directors' Report and the Auditor's Report for the last financial year to be laid before the Meeting.

The Reports referred to in Item 1 of the Notice of Meeting are included in the Annual Report sent to shareholders who have requested to receive a copy. If you have not elected to receive a hard copy of the Company's 2023 Annual Report, it can be accessed on the Company's website at www.argoinfrastructure.com.au.

Shareholders will be given a reasonable opportunity at the Meeting to ask questions and make comments on these Reports and on the business, operations and management of the Company.

There is no requirement for these Reports to be formally approved by shareholders.

REMUNERATION REPORT

Item 2: Adoption of the Remuneration Report

The Company's Remuneration Report forms part of the Directors' Report for the year ended 30 June 2023 which is included in the Company's 2023 Annual Report. The Remuneration Report is submitted to shareholders for consideration and adoption by way of a non-binding resolution.

The resolution is advisory only. The Board will consider and take into account the outcome of the vote and feedback from shareholders on the Remuneration Report when reviewing the Company's remuneration policies.

If the Company's Remuneration Report receives an 'Against' vote of 25 per cent or more at two consecutive AGMs, a resolution must then be put to shareholders at the second AGM as to whether another meeting should be held (within 90 days) at which all Directors who were in office at the date of approval of the applicable Directors' Report must stand for re-election.

Shareholders will be given a reasonable opportunity at the Meeting to ask questions and comment on the Remuneration Report.

Voting Exclusion Statement

- the vote is cast by the person chairing the Meeting, in accordance with the stated voting intentions of the Chair of the Meeting.

Chair of the Meeting authorised to exercise undirected proxies

The Chair of the Meeting will be a member of the KMP, whose remuneration is included in the Remuneration Report. You should be aware that the Chair of the Meeting intends to vote undirected proxies in favour of Item 2. By appointing the Chair of the Meeting to be your proxy, you expressly authorise the Chair of the Meeting to exercise your proxy in relation to Item 2 (including an undirected proxy) even though the Chair of the Meeting is a member of the KMP. A shareholder may appoint the Chair of the Meeting as proxy with a direction to cast the votes contrary to the Chair's stated voting intentions, or to abstain from voting on that resolution.

The Directors unanimously recommend that shareholders vote in favour of Item 2, noting that each Director has a personal interest in his or her own remuneration from the Company.

OTHER BUSINESS

Item 5: Approval of Dividend Substitution Share Plan (DSSP)

Purpose

The Company proposes to introduce a Dividend Substitution Share Plan (DSSP) which will be an alternative to the existing Dividend Reinvestment Plan (DRP), offering an optional method by which eligible shareholders of the Company may elect to receive additional ALI shares as an alternative to receiving dividends. This initiative is a result of enquiries from some shareholders who have expressed interest in the Company providing this alternative. We note that many ALI shareholders currently participate in the Company's DRP and we do not anticipate that this will change by introduction of the DSSP as an additional option.

An Information Memorandum and the DSSP's proposed Terms and Conditions are available on the AGM landing page at www.boardroom.com.au/agm/argoinfrastructure23.

Main features

- The DSSP will provide an alternative way for shareholders to receive additional ALI shares in lieu of receiving dividends.
- Shares received under the DSSP should not be subject to Australian income tax at the time the shares are allotted, as the shares are likely to be deemed not to be a dividend. The shares issued under the proposed DSSP should however impact the taxable gain or loss which may arise on a subsequent disposal of the additional and participating shares. All shareholders should seek their own tax advice before determining whether they should participate in the DSSP.
- Shareholders with a registered address in Australia or New Zealand will be eligible to participate in the DSSP.
- Eligible shareholders may elect to participate in the DSSP in respect of all or part of their holding and may vary their level of participation or withdraw at any time. Applications to participate may be lodged via the Company's share registry at www.investorserve.com.au.
- The issue of shares under the proposed DSSP will not be subject to brokerage, commission, stamp duty or other transaction costs. All administrative costs will be met by the Company.
- Shares issued under the proposed DSSP will rank equally in every respect with the existing issued shares of the Company.

Taxation treatment

ALI has received a draft class ruling from the Australian Taxation Office (ATO) in respect of certain tax outcomes for Australian resident shareholders who hold their DSSP shares on capital account. The ATO has indicated that it will issue a final class ruling if consent for the DSSP is obtained from ALI shareholders at this AGM.

The proposed DSSP provides for shareholders to elect not to receive dividends in respect of all or some of their shares in the Company but to instead receive additional fully paid ALI shares issued as bonus shares. The Company understands that, for Australian residents who hold their shares on capital account, the shares issued under the DSSP should not be deemed to be a dividend for Australian income tax purposes.

Where a shareholder forgoes a dividend which would otherwise be fully or partially franked, the shareholder will not be entitled to a 'franking credit' as the shareholder is not taken to have received a franked dividend.

For Australian tax purposes, where a shareholder ultimately disposes of bonus shares issued under the DSSP, a taxable gain or loss may arise. The tax cost base of the participating shares should be allocated across both the participating and bonus shares issued, in proportion to the market value of those shares when calculating the gain or loss.

ALI cannot advise on the taxation implications of participating in the proposed DSSP and specific taxation advice should be obtained by participants.

Comparing the proposed DSSP to the existing DRP

Whereas under the existing DRP, participating shareholders receive a fully or partially franked dividend which is automatically reinvested into new ALI shares, under the proposed DSSP participants will not receive a fully or partially franked dividend but will be issued with new shares instead. This distinction creates a tax timing difference for tax purposes.

We anticipate that the majority of eligible shareholders will prefer to continue to participate in the Company's DRP so that they may continue to obtain the benefit of any franking credits arising from any franked dividends received.

The Directors unanimously recommend that shareholders vote in favour of Item 5.
